Privacy Policy

Last Updated: July 25th, 2024

At OverPlan AI, we are committed to protecting your privacy. This privacy policy explains how we collect, use, and protect your personal information.

By using our website, you agree to the collection and use of information in accordance with this policy. If you do not agree with this policy, please do not use our website.

We reserve the right to update or change our privacy policy at any time. Your continued use of our website after we post any modifications to the privacy policy on this page will constitute your acknowledgment of the modifications and your consent to abide and be bound by the modified privacy policy.

If you have any questions about our privacy policy, please contact us at overplanai@qmail.com.

Information We Collect

When you visit our website, we collect information about your visit using cookies. Cookies are small text files that are stored on your device. We use cookies to improve your experience on our website.

We also collect information that you provide to us when you sign in to our website. This information may include your name, email address, and any other information that you choose to provide.

Web Portal

When you sign in to our web portal, we collect information about your visit using cookies. Cookies are small text files that are stored on your device. We use cookies to improve your experience on our web portal.

The web portal allows you to get AI generated plans for goals of your choosing, interact with the tasks generated, and collect badges upon completing plans. This information is stored in our database and is used to improve both your user experience as well as the quality of our services.

To fix any problem the users may have with their plans or accounts, we will view the data related to the user contained in the database. We will never share the information we use to fix your account with other users of the platform.

API

When you use our API, we collect information about your API requests. This information is stored in our database and is used to improve both your user experience as well as the quality of our services.
